

We are currently looking to expand our coverage area. TriMavin is a National Appraisal Management Company utilizing only highly qualified tenured independent real estate appraisers that must meet our standards. You must be a certified or fully licensed appraiser in the state you are applying for, and there are no registration fees. All orders are submitted through our easy to use online system. Any outstanding appraisals are paid monthly.

Upon filling out the registration please log in and complete your Trimavin profile with the following information and submit applicable documents.

- All State(s) of Licensure and Certificate Numbers
- License level: Limited to Licensed and Certified Appraisers.
- Indicate in your Trimavin profile only in counties you consider as your primary areas of coverage. Rural appraisers may expand their coverage. An Appraiser filling out a state's total counties as their coverage area will be precluded from consideration.
- Proof of E &O Insurance

We do not require signatures to be held on file or specific software. We will not engage in the data mining of reports, or otherwise alter or unlock reports transferred through our portal. We do not utilize conversion software. We deliver the entire appraisal with all the information in the style and format as created by the Appraiser.

If you feel you are qualified please join with us by following the link below to register.
